A day of vast importance is dawning upon us. If the struggle of that day results in the triumph of the Copperheads and peace sneaks, the right that follows it will be a dark and dismal one to the country. The question arises, what are these men here for? To what are we indebted for the pleasure of their acquaintance? Have they come to give us a St. Albane raid, or are they here for the purpose of making a hole in the wall of Camp Donglas, or have they come merely to take possession of the polis, and stuff the ballot hoxes next Tuesday! New Yosax, Saturday, Nov. 3.—The Richmond Sensine says of the recent inoverments. The Yankees have gained an advantageous position on the plank road which, it they look, will cause them to jextend their forsking limits, and ruin a few more Southern homesteads. They may also be in a botter position for raiding on the south side of the railroad, but otherwise we cannot consider that they have gained any vital advantage. The Yankees will have more hard fighting to go through if they persist in attempting to hold the plank road. The English says the reorganisation of the rebel army, aspecially of the cavalry, is imperatively necessary, and again refers to Enry's defeat, and attributes it to demoralization.
